

K-Love has help me continue my Christian walk By listening to music that keeps my focus on God and not on things that I used to do in the past which sicular music brings those past memories up. Other programers do not relize the importants of this station to a indiviual which they may seem that it bears no value. I believe K-Love helps many listeners by providing Christian Music that encourages the community Godly values and may reach out to that certain person just at the right time when things in life seem overbearing. This station has a way of bringing us back to the basic and takes our focus off of our situations and on to things of God. Removal of this radio station will be a great lost to our community please do not consider this it has helped in more ways than you can imagine.
